 Company profile

Weisheng Automation Co., Ltd has aimed for improving the in-mold labeling (IML) system domain. Our excellent working group is not only good at designing and manufacturing the equipment, but also integrating the injection molding machines, mold and label technology. Our AOI (Automated Optical Inspection) system is also quite with competitive ability on IML application to upgrade productive efficiency and cost down over labor and materials.

We are well known for our superior professional abilities around the automatic field.

Our machineries have been exported to various counties; include China, Korea, Brazil, Iran, Uzbekistan, Sudan, Egypt, Kuwait, Indonesia, Philippine and New Zealand.

IML For Blow Molding

1. 3-AXIS Servo with Taiwan slide
2. SMC cylinder
3. DELTA servo motor
4. DELTA HMI
5. MITSUBISHI PLC
6. German WAGO
7. Aluminium structure
